

INIALA

HARBOUR HOUSE · MALTA

Iniala's foundation is built upon a passion for Art, Design, Gastronomy, Service and Philanthropy. By incorporating an exceptional level of each of these elements, Iniala Harbour House is bringing an unforeseen dimension of experiential travel to the island.

Located on the prestigious and historic St Barbara Bastion, overlooking Malta's famous UNESCO Grand Harbour, Iniala Harbour House is a luxury hotel spread over four Maltese townhouses and several ancient vaults, each having been lovingly restored to perfection.

From sophisticated minimalism to understated Baroque styles, the hotel is a compendium of unique and innovative design concepts executed on the historical buildings by three world-class design studios: A-Cero from Spain, Autoban from Turkey and Malta's very own DAAA HAUS.

The resulting collaboration is an eclectic masterpiece that offers guests an unexpected and unforgettable experience. Featuring custom-made furniture, exquisite fabrics and charming Maltese balconies, the hotel is a celebration of contemporary design that reflects Valletta's unique heritage and charm. The suites are graced with complementing art by both local and international artists, as well as tailor-made lighting and furniture fixtures by world-renowned designers.

Maintaining an exceptional level of luxury throughout, Iniala Harbour House's 23 rooms and suites cater to all, varying in size from 21 square metre Deluxe Rooms to Signature Suites measuring up to 162 square metres. With Valletta's quaint East Street on one side, and the impressive UNESCO Grand Harbour and the fortified "Three Cities" of Birgu, Senglea and Cospicua on the other, each one of these rooms and suites enjoys authentic and impressive views.

While some suites feature their very own plunge pool, the hotel itself incorporates an indoor pool, fitness centre, yoga room, spa and the superb Michelin-starred rooftop restaurant, ION Harbour by Simon Rogan.
